

2009 SSA HANDICAPS - SORTED ALPHABETICALLY BY MANUFACTURER						
Notes:						
F = Fixed gear (when both fixed and retractable variants exist)						
R = Retractable gear (when both fixed and retractable variants exist)						
M = Motorized sailplane						
S = Standard Class sailplane						
W = Equipped with manufacturer-supplied winglets						
C = US Club Class: Check US Team List for final determination						
➔ Motorgliders flying with their engines removed use standard glider handicaps and weights						
➔ Weight is based on adding 250 lbs (for pilot, chute, instruments, oxygen) to the empty ship weight						
➔ If Competition Weight (Rule 6.12.4) is different from the specified Handicap Weight,						
the Handicap Factor shall be multiplied by the following:						
1.0 - (Competition Weight - Handicap Weight) x 0.0002)
